## Dr Eddie Eikens

As at : 20/01/2015

1. Wilcken D.E.L., Paolini H.J., **Eikens E.J.** Ischaemic Chest Pain, Intravenous Dipyridamole (Persantin) and Coronary Vasodilation. *Aust. Ann. Med.* 19:188, 1970
2. Wilcken D.E.L. Shorey C.D., **Eikens E.J.** Ultrastructural Evidence for Regeneration of Heart Muscle Cells after Experimental Myocardial Infarction. *Lancet II*: 21, 1970
3. Wilckens D.E.L., **Eikens E.J.**, Shorey C.D. Fine-structural Evidence for Regeneration of Heart Muscle Cells after Myocardial Infarction. *Proc. Aust. Physiol. Pharmacol. Soc.* 1:51, 1970
4. **Eikens E.J.**, Wilcken D.E.L. Some effects of Glycerol Trinitrate and Dipyridamole on Venous Blood Draining a small area of Myocardial Ischaemia. *Proc. Aust. Physiol. Pharmacol. Soc.* 1:52, 1970
5. Wilcken D.E.L., Paolini H.J., **Eikens E.J.** Evidence for Intravenous Dipyridamole Producing a “Coronary Steal” Effecting the Ischaemic Myocardium. *Aust.N.Z.J. Med.* 1:9, 1971
6. **Eikens E.J.**, Wilcken D.E.L. The effect of Dipyridamole and if Aminophylline and Response to Sixty Second Coronary Artery Occlusions in Dogs. *Aust. J. Exp. Biol. Med. Sci.* 51:631-642, 1973
7. **Eikens, E.J.**, Wilcken D.E.L. Myocardial Reactive Hyperaemia and Coronary Vascular Reactivity in the Dog. *Circulation Res.* 33:267-274, 1973
8. Wilcken D.E.L., **Eikens E.J.** Reactive Hyperaemia in the Dog Heart: Assessment Post-Hyperaemia Coronary Vascular Reactivity and the Effects of Temporarily Restricting Arterial Inflow. *J. Physiol. (London)* 234:48P, 1973
9. Bennett D.J., **Eikens E.J.**, Effler D.B., Wright J.S. Direct Surgical Myocardial Revascularisation. *Med. J. Aust.* 1:951-953, 1974
10. **Eikens E.J.**, Wilcken D.E.L. Effects of Temporarily Restricting Arterial Inflow and of Coronary Occlusions of One and Two Cardiac Cycle Duration. *Circulation Res.* 35:702-712, 1974
