2012 PROGRAM

BLOOD COLLECTION

The first part of the course is designed for people who wish to learn skills relating to blood collection in a pathology environment.

At the end of this module participants will be able to:

- Greet their client and apply pre-test criteria.
- Prepare for blood collection procedure.
- Perform relevant routine blood collection procedure
- Perform post-blood collection procedures.

This is a competency based training package. Participants who successfully complete the course will be awarded a Statement of Attainment, in module HLTPAT306B 'Perform Blood Collection' from Certificate III in Pathology HLT32607.

SPECIMEN COLLECTION

The second part of the course is designed for people who wish to learn skills relating to specimen collection in a pathology environment.

At the end of this module participants will be able to:

- Receive requests for collections of pathology specimens
- Perform procedure
- Label and store specimens for transportation
- Care for the patient or client

This is a competency based training package. Participants who successfully complete the course will be awarded a Statement of Attainment, in module HLTPAT304B 'Collect Specimens Other Than Blood' from Certificate III in Pathology HLT32607
