Robotic Co-ordinator (Clinical Nurse Consultant) – Operating Theatres (full time)

Location: Sydney Adventist Hospital, Wahroonga, NSW

Would you like to join a successful theatre team within a hospital that is renowned for its excellence in all areas of health care? Is being a part of a theatre team that values your experience, offers education opportunities and has access to most surgical specialties important to you?

Due to the expansion of the Robotic Surgical Services at the Sydney Adventist Hospital an exciting opportunity has become available for a full time Robotics Coordinator (Clinical Nurse Consultant). This is a pivotal position within our organisation which is crucial to the further development of our Robotics program. The position will involve the co-ordination of all robotic services in our Operating Theatre Suite consisting of 19 operating theatres.

Key roles and responsibilities:

- Provide expert guidance and develop resources on Robotic Perioperative Nursing to support all stakeholders in the organisation
- Liaise with medical officers, nursing staff and the management team to ensure optimal patient outcomes relating to Robotic Surgery are achieved
- Manage the logistics of equipment and consumables
- Possess excellent problem solving methodologies and time management skills

Essential Criteria:

- Current AHPRA registration with minimum 5 years’ Perioperative Nursing experience including Robotic Surgery
- Post graduate qualification in Perioperative Nursing or working towards same
- Membership of relevant professional bodies
- Proven ability to work both independently and collaboratively as part of a multi-disciplinary team
- Demonstrated excellent collaborative, leadership, teaching and interpersonal communication skills
- Flexible work practices to meet changing needs with the ability to prioritise workload in line with competing demands
- Demonstrated professional manner when working within complex situations
- Ability to promote a positive approach to change
- Highly developed negotiation skills
- Demonstrated commitment and involvement in contributing to Quality Management programs
- Current Blood Safe and DETECT competencies
Desirable Criteria:

- Previous experience as Perioperative Clinical Nurse Specialist / Consultant or Nurse Unit Manager
- Previous Robotics Co-ordinator Experience
- Formal Management or Leadership qualifications
