Advanced Life Support

Level 1 Accreditation

Build the knowledge, practical skills and confidence to recognise deterioration, respond to cardiac arrest and provide effective advanced life support as part of a clinical team

Advanced Life Support (ALS1) Accreditation Training is delivered by San Education in partnership with Resuscitation Australia. Learn practical resuscitation skills from accredited instructors.

WHO SHOULD ATTEND?

Designed for healthcare professionals who may be required to recognise and respond to critically ill or deteriorating patients and cardiac arrest, including:

Medical Practitioners • Nurses • Allied Health Professionals

Earn 8 CPD Hours

WHAT WILL YOU LEARN?

Develop the knowledge and practical skills to:

- Recognise and assess deteriorating patients using a structured ABCDE approach.
- Manage airways and ventilation effectively.
- Recognise cardiac arrest rhythms, including shockable and non-shockable rhythms.
- Use a defibrillator safely and understand the importance of early defibrillation.
- Apply the ALS algorithm and identify reversible causes of cardiac arrest.
- Manage cardiac arrest, including appropriate medications and return of spontaneous circulation.
- Work effectively within a resuscitation team using strong communication and teamwork skills
- Understand post-resuscitation care.
