

Advanced Life Support

Level 1 Accreditation

Build the knowledge, practical skills and confidence to recognise deterioration, respond to cardiac arrest and provide effective advanced life support as part of a clinical team.

Successfully complete the course to achieve Resuscitation Australia ALS1 accreditation, with practical training delivered by Resuscitation Australia-accredited instructors.

WHO SHOULD ATTEND?

Designed for healthcare professionals who may be required to recognise and respond to critically ill or deteriorating patients and cardiac arrest, including:

Nurses • Medical Practitioners • Allied Health Professionals

**Earn
CPD
Hours**

8

WHAT WILL YOU LEARN?

Develop the knowledge and practical skills to:

- Recognise and assess deteriorating patients using a structured ABCDE approach
- Manage airways and ventilation effectively
- Recognise cardiac arrest rhythms, including shockable and non-shockable rhythms
- Use a defibrillator safely and understand the importance of early defibrillation
- Apply the ALS algorithm and identify reversible causes of cardiac arrest
- Manage cardiac arrest, including appropriate medications and return of spontaneous circulation
- Work effectively within a resuscitation team using strong communication and teamwork skills
- Understand post-resuscitation care.

COURSE

This is an 8-hour course:

- 4 hours eLearning
- 4 hours face-to-face

LOCATION

Sydney Adventist Hospital
185 Fox Valley Road
Wahroonga NSW 2076
